

New records of lacebugs from the Palaearctic part of Asia (Heteroptera: Tingidae)

V.B. Golub

Golub, V.B. 1995. New records of lacebugs from the Palaearctic part of Asia (Heteroptera: Tingidae). *Zoosystematica Rossica*, 3(2), 1994: 256.

16 species are recorded for the first time from various countries of Asia.

V.B. Golub, Voronezh University, Universitetskaya pl. 1, Voronezh 394693, Russia.

The paper is based on the collections of the Zoological Institute, St. Petersburg. The following abbreviations are used: AF – Afghanistan, AR – Armenia, AK – Kazakhstan (Asiatic part), TM – Turkmenistan. All records are the first ones for respective countries.

Campylostera bosnica Horváth, 1892. Russia, N Caucasus: 4 specimens (3 of them badly damaged), Pyatigorsk, 8.V.1928, 1.IV.1937 (Rysakov).

Campylostera eximia Horváth, 1892. AK: 1 ♀, Kzyl-Orda, 24.IV.1905 (Oshanin). TM: 1 ♀, Murgab Distr., Teze-Durmush, 3.VI.1971 (Kamalov); 1 ♂, 5 ♀, Iolatan', 21.III.1927 (Kizeritskiy). China: 1 ♀, NE Xinjiang, Nanshankou, N of Hami, 27.V.1877 (Potanin).

Campylostera orientalis Horváth, 1881. AR: 1 ♀, Kirovakan [= Vanadzor], 13.VII.1956 (Gevorkian).

Acalypta hellenica Reuter, 1888. AR: 1 ♀, Ashtarak Distr., gorge of Kazakh River, 16.V.1957 (Trjapitzin).

Dictyonota halimodendri Golub, 1975. AK: 1 ♂, 35 km NW of Kegen, Charyn River, 15.VII.1986 (Volkovich).

Kalama coriacea (Asanova, 1970). TM: 1 ♀, W Kopetdagh, Aydere gorge, 12.V.1979 (Fet).

Derephysia buharensis Josifov, 1969. TM: 6 ♂, 5 ♀, Badhyz Nature Reserve, Kzyl-Dzhar, 5.VI.1972 (Golub), on *Artemisia (Seriphidium)* sp.

Derephysia gracilicornis Josifov, 1969. TM: 1 ♂, Badhyz Nature Reserve, Kzyl-Dzhar, 6.VI.1972 (Golub), on the same plant as *D. buharensis*.

Derephysia minuta Josifov, 1969. AK: 1 ♀, Akkum, 200 km SE of Kzyl-Orda, 30.V.1996 (Kerzhner).

Tingis (s. str.) *rotundicollis* (Jakovlev, 1883). TM: 1 ♀, 1 larva, Kopetdagh, env. of Karakala, 1300-1400 m, 29.VI.1983 (Sugonjaev). – *T. rotundicollis* and *T. grisea* Germar, 1835 are considered good species by Horváth (1906) and other authors (for distinguishing characters see Golub, 1977), but as synonyms by Putshkov (1974) and Péricart (1983). None of these species was recorded from TM.

Tingis (s. str.) *leptochila* Horváth, 1906. Kirgizia: 1 ♂, Central Tien-Shan, 80 km W of Naryn (Emeljanov).

Tingis (s. str.) *zhadiana* Golub, 1978. AK: Ushtobe near Taldy-Kurgan; Ulanbel' on Chu River. TM: Great

Balkhan Mts. AF: Baglan.

Tingis (s. str.) *demissa* Horváth, 1906. AR: 1 ♀, Erevan, 1.XI.1931 (Korinek).

Tingis (s. str.) *suavis* Horváth, 1902. Uzbekistan: 1 ♀, Shirabad, 1912 (Siyazov); 2 ♀, Termez, 9, 24.V.1912 (Kiritshenko); 1 ♀, 40 km NW of Dzhingildy (Nartshuk).

Tingis (*Neolasiotropis*) *ottomana* Péricart & Önder, 1982. Iran: 17 specimens, Shahkuh, 22.VI, 5.VII.1914 (Kiritshenko).

Dictyla concinna Golub, 1979. AK: 2 ♂, 1 ♀, Dzhambul Prov., 25 km SW of Otar, 9.VI.1978 (Kerzhner).

Monosteira lobulifera Reuter, 1888. TM: 5 ♂, 4 ♀, Repetek, 6.VI.1962 (Trjapitzin).

Monosteira tuberculata Péricart, 1981. AF: 6 ♂, 5 ♀, 40 km W of Djelalabad, 23.VII.1966 (Sugonjaev).
